## 16-14 Gauge On Terminal

Vinyl-insulated push-on blade type connector. Connect or disconnect material is an economical terminal and wire connector. Terminals are common in vehicles, but can be used in applications as well. Insulated terminal is securely fastened. Insulation has a flared entry. Industry standard color-coding indicates wire range. Rated 600 volts maximum, signs and fixtures. Temperature rating: 105° C (221° F).

**16-14 Gauge .110 Male Push On Terminal, Bag Of 100**

Vinyl-insulated push-on terminals are female and male blade type connectors that mate with each other to connect or disconnect a wired connection. The vinyl material is an economic insulation that seals the terminal and wire connection. Vinyl-insulated push-on terminals are commonly used in auto and marine vehicles, but can be used in various other electrical applications as well. This series is the most economical insulated terminal available. The PVC insulation sleeve is securely fastened to the butted seam barrel. The insulation has a flared entry for easier wire insertion. Industry standard color-coding indicates wire range. Rated 600 volts maximum, building wire; 1000 volts maximum, signs and fixtures. Temperature rating: 105° C (221° F).
