

## 16 Gauge Yellow Rvi Wire 100 Foot Roll

Non Stock, Item Must Be Ordered. 16 gauge RVI hook-up wire is ideal for machine tools, control cabinets, automotive and marine applications. The thermoplastic insulation is moisture resistant and provides extra protection against nicks and cuts. UL style 1015/1230, 105°C, rated for 600 volts. Manufactured to meet or exceed the specifications of the RVI, NFPA, ANSI and J1128. CSA file no. 22035, UL file no. E51293. Specifications printed on wire. Use in internal wiring where exposure to temperatures does not exceed 221°F or where exposure to oil at temperatures not exceeding 140°F. CSA type TEW FT1.

## 16-14 Gauge #10 Stud Ring, Vinyl Insulated Terminal, Bag of 100

This series is the most economical insulated terminal available. The PVC insulation sleeve is securely fastened to the butted seam barrel. The insulation has a flared entry for easier wire insertion. Rated 600 volts maximum, building wire; 1000 volts maximum, signs and fixtures. Industry standard color-coding indicates wire range. Temperature rating: 105° C (22

## 16-14 Gauge #6 Stud Ring, High Temp Terminal, Bag of 100

High temperature butt connectors are terminals that mate, connect, or terminate a single wire. High temperature butt connectors are ideal for use in high temperature applications like motors, ovens or other applications where terminals can melt. This series is ideal for use in high temperature applications like motors, ovens or other applications where terminals can melt. Constructed of steel plated nickel. Rated for continuous operating temperature of 482° C (900° F), intermittent rating of 649° C (1200° F).

### 16-14 Gauge High Temperature Terminal

High temperature butt terminal, connect, or terminate high temperature butt connections. High temperature applications where standard terminals are not ideal for use in high temperature motors, ovens or other applications where terminals can melt. Constructed for continuous operating temperature and intermittent rating.

### 16-14 Gauge On Terminal

Vinyl-insulated push-on blade type connector. This terminal can be used to connect or disconnect wires. The material is an economical terminal and wire connector. These terminals are commonly used in vehicles, but can be used in many other applications as well. The insulated terminal is securely fastened

insulation has a flared entry for easier wire insertion. Industry standard color-coding indicates wire range. Rated 600 volts maximum, building wire; 1000 volts maximum, signs and fixtures. Temperature rating: 105° C (221° F).

## 16-14 Gauge .110 Male Push On Terminal, Bag Of 100

Vinyl-insulated push-on terminals are female and male blade type connectors that mate with each other to connect or disconnect a wired connection. The vinyl material is an economic insulation that seals the terminal and wire connection. Vinyl-insulated push-on terminals are commonly used in auto and marine vehicles, but can be used in various other electrical applications as well. This series is the most economical insulated terminal available. The PVC insulation sleeve is securely fastened to the butted seam barrel. The insulation has a flared entry for easier wire insertion. Industry standard color-coding indicates wire range. Rated 600 volts maximum, building wire; 1000 volts maximum, signs and fixtures. Temperature rating: 105° C (221° F).
