

16-14 Gauge .250 Male Push On Fully Insulated Terminal, Bag of 100

The Nylon insulation sleeve is molded onto the barrel. Transparent nylon allows for easy inspection of connection and is resistant to deformation. The insulation has a flared entry for easier wire insertion. Industry standard color-coding indicates wire range. Rated 600 volts maximum, building wire; 1000 volts maximum, signs and fixtures. Temperature rating: 105° C (221° F).

Product Description

16-14 Gauge High Temperature Terminals

High temperature butt terminals are used to mate, connect, or terminate high temperature butt connections. They are used in high temperature applications where standard terminals are not ideal for use in high temperature environments such as motors, ovens or other applications where terminals can melt. Constructed for continuous operation and intermittent rating.

Product Description

16-14 Gauge 1/4 Stud Ring, Vinyl Insulated Terminal, Bag of 100

This series is the most economical insulated terminal available. The PVC insulation sleeve is securely fastened to the butted seam barrel. The insulation has a flared entry for easier wire insertion. Rated 600 volts maximum, building wire; 1000 volts maximum, signs and fixtures. Industry standard color-coding indicates wire range. Temperature rating: 105° C (22

Product Description

16-14 Gauge 5/16 Stud Ring, High Temp Terminal, Bag of 100

High temperature butt connectors are terminals that mate, connect, or terminate a single wire. High temperature butt connectors are ideal for use in high temperature applications like motors, ovens or other applications where terminals can melt. This series is ideal for use in high temperature applications like motors, ovens or other applications where terminals can melt. Constructed of steel plated nickel. Rated for continuous operating temperature of 482° C (900° F), intermittent rating of 649° C (1200° F).

Product Description

16-14 Gauge Butt Connector Terminal, Bag Of 100

Vinyl-insulated butted seam butt connectors are terminals that are used to mate, connect, or terminate a single wire. The vinyl material acts as an economic insulation and the butted seam is the most common type of terminal barrel. Vinyl-insulated butt connectors are great for marine vehicles, and in other applications that utilize wire to transfer electrical current. This series is the most economical insulated terminal available. The PVC insulation sleeve is securely fastened to the butted seam barrel. The insulation has a flared entry for easier wire insertion. Industry standard color-coding indicates wire range. Rated 600 volts maximum, building wire; 1000 volts maximum, signs and fixtures. Temperature rating: 105° C (221° F).
