22-18 Gauge .187 Female Push On Terminal, Bag Of 100

Vinyl-insulated push-on terminals are female and male blade type connectors that mate with each other to connect or disconnect a wired connection. The vinyl material is an economic insulation that seals the terminal and wire connection. Vinyl-insulated push-on terminals are commonly used in auto and marine vehicles, but can be used in various other electrical applications as well. This series is the most economical insulated terminal available. The PVC insulation sleeve is securely fastened to the butted seam barrel. The insulation has a flared entry for easier wire insertion. Industry standard color-coding indicates wire range. Rated 600 volts maximum, building wire; 1000 volts maximum, signs and fixtures. Temperature rating: 105° C (221° F).

Product Description

22-18 Gauge .250 Female Push On Fully Insulated Terminal, Bag of 100

The Nylon insulation sleeve is molded onto the barrel. Transparent nylon allows for easy inspection of connection and is resistant to deformation. The insulation has a flared entry for easier wire insertion. Industry standard color-coding indicates wire range. Rated 600 volts maximum, building wire; 1000 volts maximum, signs and fixtures. Temperature rating: 105° C (221° F).

Product Description

22-18 Gauge 1/4 Stud Ring, High Temp Terminal, Bag of 100

High temperature butt connectors are terminals that mate, connect, or terminate a single wire. High temperature butt connectors are ideal for use in high temperature applications like motors, ovens or other applications where terminals can melt. This series is ideal for use in high temperature applications like motors, ovens or other applications where terminals can melt. Constructed of steel plated nickel. Rated for continuous operating temperature of 482° C (900° F), intermittent rating of 649° C (1200° F).

Product Description

22-18 Gauge Butt Connector Terminal, Bag Of 100

Vinyl-insulated butted seam butt connectors are terminals that are used to mate, connect, or terminate a single wire. The vinyl material acts as an economic insulation and the butted seam is the0 most common type of terminal barrel. Vinyl-insulated butt connectors are great for marine vehicles, and in other applications that utilize wire to transfer electrical current. This series is the most economical insulated terminal available. The PVC insulation sleeve is securely fastened to the butted seam barrel. The insulation has a flared entry for easier wire insertion. Industry standard color-coding indicates wire range. Rated 600 volts maximum, building wire; 1000 volts maximum, signs and fixtures. Temperature rating: 105° C (221° F).

Product Description

22-18 Gauge Closed End Connector Terminal, Bag of 100

Closed End connectors are ideal for making a simple connection of two or more wires to make a pigtail connection. These closed end connectors feature translucent nylon insulation and a tin-plated copper sleeve that is rated to be used in up to 300V and is RoHS compliant. Translucent nylon insulation. Tin-plated copper sleeve. Meets UL 94V-2 Flammability Classification. Rated for continuous operating temperature of 105°C (221°F).
