6 Gauge Bu Terminal, B

Vinyl-insulated butt terminals that are used to connect a single wire. The vinyl insulation and the butt type of terminal bars are great for marine applications that utilize wire to terminate. This series is the most economical available. The PVC insulation is fastened to the butt terminal with a flared entry for easy installation. Standard color-coding is available. 60 volts maximum, but not for signs and fixtures. (70 F).

Product Description

8 Gauge Butt Connector Terminal, Bag Of 25

Vinyl-insulated butted seam butt connectors are terminals that are used to mate, connect, or terminate a single wire. The vinyl material acts as an economic insulation and the butted seam is the most common type of terminal barrel. Vinyl-insulated butt connectors are great for marine vehicles, and in other applications that utilize wire to transfer electrical current. This series is the most economical insulated terminal available. The PVC insulation sleeve is securely fastened to the butted seam barrel. The insulation has a flared entry for easier wire insertion. Industry standard color-coding indicates wire range. Rated 600 volts maximum, building wire; 1000 volts maximum, signs and fixtures. Temperature rating: 105° C (221° F).
