

12-10 Gauge Flanged Spade Terminal, 6 Stud, Bag Of 100

Vinyl-insulated, flanged spade terminals are connectors that are used to connect a single wire, while allowing for a connection to a screw or stud type electrical connection. The vinyl material acts as an economic insulation type, while the flanged shape of the spade terminal fastens onto the stud nut. This prevents the terminal from pull-out and creates a more secure connection. Because of this, insulated flanged spade terminals are commonly used in high vibration electrical applications. Rated to 600 volts maximum, building wire; 1000 volts maximum, 105° C.

Product Description

12-10 Gauge High Temp Butt Connector, Bag Of 100

High temperature butt connectors are terminals that mate, connect, or terminate a single wire. High temperature butt connectors are ideal for use in high temperature applications like motors, ovens or other applications where terminals can melt. This series is ideal for use in high temperature applications like motors, ovens or other applications where terminals can melt. Constructed of steel plated nickel. Rated for continuous operating temperature of 482° C (900° F), intermittent rating of 649° C (1200° F).
