**Parts Storage Box (Only) 27 Compartments 10.5W x 5H x 3D**

Large-capacity Double-layer storage box adopts double-layer design, providing more storage space for your parts. The top layer is 10.5W x 5H x 3D, suitable for larger components. The bottom layer is 10.5W x 5H x 3D, suitable for smaller components. The box features a sturdy black frame and a clear plastic lid. The interior is lined with a blue plastic tray that can be easily removed and cleaned. The tray has 27 compartments, including 4 fixed compartments and 23 movable compartments. The fixed compartments are 12 movable small compartments, which can divide the 4 fixed compartments into smaller ones, and 5 detachable compartments, which can be moved around to create different storage configurations. The movable dividers are made of a flexible plastic material that can be easily bent and shaped to fit different storage needs. The box is designed to be durable and long-lasting, with a strong plastic frame that can withstand wear and impact. The clear lid allows you to easily see the contents of the box without having to open it. The blue tray provides a nice contrast to the black frame and lid, making the box look modern and professional. The box is perfect for storing a variety of small parts, such as screws, nuts, bolts, and washers, in an organized and accessible manner. It is also great for storing tools, such as wrenches, pliers, and screwdrivers, in a compact and portable package. The box is easy to assemble and disassemble, making it a convenient storage solution for any workshop or garage. The large capacity and organized storage make it a must-have for anyone who needs to store a lot of small parts or tools in a compact space.

## **Pentek 20 Inch Big Blue Dual Housings Empty Filters Assembly With Pressure Relief, 1 Inch Fpt, Includes Wrench**

Item Must Be Ordered, Pentek Big Blue Housing Filtration System makes installation and set-up of a high capacity system even easier. Well suited for residential, commercial and industrial water filter applications. This housing system has great versatility to meet all of your large volume filtration needs. It is sized to handle the water for an entire household, even in areas where you need to filter a high flow of water and/or a heavy amount of sediment. The 1-inch internal port allows a greater amount of liquid to pass through the cap with more speed, while the built-in pressure release button in the cap makes it easier to loosen the sums when it's time to replace the filter. Max Pressure 90 Psi, Max Temp 100°F, Flow Rate 40 Gpm
