

16-14 Gauge .187 Female Push On Fully Insulated Terminal, Bag Of 100

Vinyl-insulated push-on terminals are female and male blade type connectors that mate with each other to connect or disconnect a wired connection. The vinyl material is an economic insulation that seals the terminal and wire connection. Vinyl-insulated push-on terminals are commonly used in auto and marine vehicles, but can be used in various other electrical applications as well. This series is the most economical insulated terminal available. The PVC insulation sleeve is securely fastened to the butted seam barrel. The insulation has a flared entry for easier wire insertion. Industry standard color-coding indicates wire range. Rated 600 volts maximum, building wire; 1000 volts maximum, signs and fixtures. Temperature rating: 105° C (221° F).

Product Description

16-14 Gauge .180 Male Bullet Connector, Vinyl Insulated Terminal, Bag of 100

This series is the most economical insulated terminal available. The PVC insulation sleeve is securely fastened to the butted seam barrel. The insulation has a flared entry for easier wire insertion. Rated 600 volts maximum, building wire; 1000 volts maximum, signs and fixtures. Industry standard color-coding indicates wire range. Temperature rating: 105° C (221° F).

Product Description

16-14 Gauge Closed End Connector Terminal, Bag of 100

Closed End connectors are ideal for making a simple connection of two or more wires to make a pigtail connection. These closed end connectors feature translucent nylon insulation and a tin-plated copper sleeve that is rated to be used in up to 300V and is RoHS compliant. Translucent nylon insulation. Tin-plated copper sleeve. Meets UL 94V-2 Flammability Classification. Rated for continuous operating temperature of 105°C (221°F).

16-14 Gauge .250 Female Push On, Insulated Terminal, Bag of 100

This series is the most economical insulated terminal available. The PVC insulation sleeve is securely fastened to the butted seam barrel. The insulation has a flared entry for easier wire insertion. Industry standard color-coding indicates wire range. Rated 600 volts maximum, building wire; 1000 volts maximum, signs and fixtures. Temperature rating: 105° C (221° F).

Product Description

22-18 Gauge Terminal, B

Vinyl-insulated butt terminals that are used for joining a single wire. The vinyl insulation and the butt type of terminal bars are great for marine applications that utilize wire to terminate. This series is the most expensive available. The PVC is fastened to the butt with a flared entry for each standard color-coded wire (volts maximum, but see signs and fixtures. 7 F).

22-18 Gauge Piggy Back, .250 Female Push-On Terminal, Bag Of 100

Push-on, piggy back terminals are female type connectors that mate with male push-on terminals, and have an additional male blade to connect a primary and secondary wire, all in one connection. Push-on, piggy back terminals are popular in auto and marine applications, but are also used in various other electrical applications. Most economical insulated terminal available. PVC insulation sleeve is securely fastened to butted seam barrel. Insulation has flared entry for easier wire insertion. Industry standard color-coding indicates wire range. Rated to 600 volts maximum, building wire; 1000 volts maximum, 105° C.
