

## Aquatec Delivery Demand Water Pump 6.0 Gpm 60 Psi With 6 Foot Cord, 115V, 1/2 Fpt

The Aquatec 550 Series Pumps are used to either draw water from a holding tank and pressurize it or boost pressure from a low pressure source. Although designed to operate intermittently many 550 versions can run continuously for several hours at a time. These pumps can be operated either in demand mode (pressure switch controlled) or in delivery mode (controlled by external power switching device). If needed an integral bypass can be used to limit pressure. 5-chamber construction Closed impervious diaphragm Independent symmetrical valves Highest structural integrity Ten point clamping Engineered composite plastics Corrosion resistant metal Pressure switch and transducer options Aquatec 5513 Demand Pump Benefits: Self-priming Unparalleled performance efficiency Whisper quiet at lower flows Minimal pulsations 7 year design life Runs dry without damage Chemically resistant versions Aquatec 5513 Demand Pump Technical Information Aquatec 550 Series Demand Pump Data 5513 550 Series Superflow Pumps Aquatec 550 Series Superflow Pumps Duplex 2 Series Pumps are suited for chemical or beverage and water applications such as city water pressure boost. Built in check valve.
